Koreksi radiometrik dengan envi 4.5

buka envi 4.5

pilih file->open image file

pilih citra yang akan dikoreksi

akan muncul tampilan seperti diatas

klik kanan file

hasil statistic citra yang belum terkoreksi

tampilan rgb citra 3,2,1 yang belum terkoreksi

pilih band math

lalu pada enteran expression masukkan b1-nilai minimum citra nilainya dapat dilihat pada statistic citra tadi lalu add list dan oke

pada available bands list pilih band1 lalu pilih memori lalu oke

tampilan

ulangi langkah untuk semua band

pilih basic tools -> layer stacking

select 1 - 6 lalu oke

pilih memori lalu oke

klik kanan memori -> quick start

hasil statistik setelah di koreksi
